

Wheel Balance Weights (Adhesive)

Our steel adhesive wheel weights are widely used in the world. They are considered the most suitable lead-free material with easier recyclability, more density and lower costs compare with zinc and lead. Products are available with zinc coating and plastic coating.

Features

- + A shift to lead-free alternatives
- + Proven long-lasting coating for corrosion protection
- + Available in different tape types.
- + Designed segments allows for easier contouring to the wheel shape when installing.

FSF02

Weight Size: 5g*12 segments, 60g/strip.
Surface: Zinc plated or plastic coated.
Packaging: 100 strips/box, 4box/carton.

Fortune Auto Parts Manufacture Co.,Ltd.

Ningbo Fortune specializes in auto parts manufacturing. Founded in Ningbo in 1996, Fortune is now one of the leading professional manufacturers of wheel balance weights, tire valves, and tool accessories. We now have warehouses and offices in North America, which makes a better support for our global customers.

Features

A shift to lead-free alternatives.

Proven long-lasting coating for corrosion protection.

Designed shape contours to fit for multiple rim sizes.

Less scratches to rims.

Wheel Balance Weights (Clip On)

Our lead-free alternative wheel weights are environmentally friendly for application to a wide range of steel and alloy rims. Plastic coated feature to OE standards for a higher level of corrosion resistance.

FCZ05

Zinc Clip On Wheel Weights (Steel Wheel)

These weights are ideally designed for the application to steel rims.

Available Weight Sizes: 5g,10g,15g,20g,25g,30g,35g,40g,45g,50g,55g,60g.

Packaging Units: 5g-30g 100 pieces/box ; 35g-60g 50 pieces/box.
